REMARKS

Pursuant to the requirements of 37 C.F.R. §§1.821-1.825, Applicants submit the enclosed computer-readable sequences. The six (6) sequences may be found in File Hsp65.SEQ on the enclosed diskette and are presented on the enclosed pages 34a-34e for insertion into the specification. Please note that the sequences for the peptide fragments shown in Table I page 21 of the specification are not submitted. Submission of these sequences would be redundant because they are re-iterations of sequences of Hsp65 described in SEQ ID NO: 1:, as noted in footnote 1 of Table I.

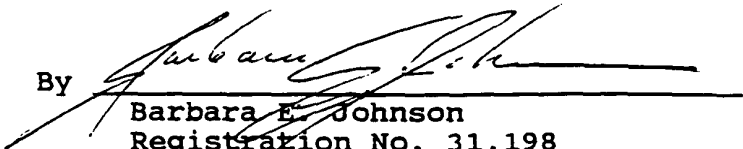

The computer-readable form supplied on the diskette is identical to that presented on new pages 34a-34e. The material presented in computer-readable form is not new matter because it presents the identical sequences presented in Figures 13 and 14 of the application, as filed on September 18, 1996.

Applicants respectfully request examination of the claims on the merits.

Respectfully submitted,
